Cloud Solution Architecture

Examples

Architecture	Examples	Pros	Cons
IaaS	- Amazon EC2 - Rackspace	- Doesn't use own computing power - Data gets saved online	- Data can get lost - Expensive
PaaS	- Heroku - Wasabi	- Cheap for its value - Scalable	- Not compatible with all software - Provider can see code and data
SaaS	- GitHub - Gmail	- No technical knowledge needed - Fast and easy to use	- Blackbox - More data collection, less privacy
